

CORE COMPETENCIES

Intergov Technologies Inc. specialises in the procurement, integration, and life-cycle management of mission-critical assets for U.S. government agencies. We provide a FAR-compliant supply chain for specialised vehicles, industrial equipment, and tactical gear.

		
DEFENCE	CYBER	MOBILITY
We provide full-spectrum tactical solutions designed to enhance the safety, survivability, and effectiveness of personnel in high-stakes environments. From advanced systems to field-proven safety equipment, Intergov ensures that every mission is supported by the highest standards of hardware and protection.	Intergov delivers hardened digital infrastructure and cybersecurity services that protect critical government networks against evolving threats. We combine strategic software licensing with enterprise-grade hardware to ensure seamless, secure, and compliant operational environments.	Specializing in global mobility solutions, Intergov provides mission-critical vehicle fleets tailored for urban utility and battlefield operations. Our expertise in specialized vehicle procurement ensures that government agencies have the tactical transport required for rapid deployment and resilient logistics.

OUR MISSION

Our mission is to eliminate procurement friction for government agencies by providing a singular, reliable point of contact for specialized hardware and software integration. Powered by a leadership team with deep domain expertise in the procurement and lifecycle management of mission-critical systems.

- Strategic Sourcing Expertise:** Our team specializes in navigating global markets to procure specialized industrial and tactical equipment meeting exact agency specifications.
- Compliance & Risk Management:** We maintain internal protocols guaranteeing 100% alignment with Federal Acquisition Regulations (FAR) and agency-defined contract terms.
- Lifecycle Sustainment:** We focus on long-term asset readiness, from initial procurement through post-award technical support and warranty management.

DIFFERENTIATORS

FAR-Compliant Operational Protocol

We operate under a rigorous internal framework that ensures 100% alignment with Federal Acquisition Regulations (FAR), guaranteeing a seamless and audit-ready procurement process.

Economically Optimized Pricing

By leveraging a lean, agile supply chain and direct-to-manufacturer relationships, we provide enterprise-grade defense and cyber solutions at a price point that maximizes your agency's budget.

Comprehensive Buyer Protections

Every asset we deploy is backed by robust performance warranties and dedicated post-award support in strict accordance with the contract terms and specifications established by your agency, ensuring long-term mission reliability and proactive risk mitigation

Mission-Synchronized Reliability

Our delivery protocol is built on a "Duty-First" philosophy, providing consistent, on-time execution and transparent reporting that eliminates the typical uncertainty of vendor partnerships.
